FOR over 15 years I have been developing my Evergreen Department, and during that time have been perfecting the methods of growing.

The aim has been to furnish only perfect specimens, with such a root system, that the buyer could confidently expect every tree to grow. We have accomplished our purpose.

We have nearly 100 varieties. A trial order invariably results in a regular customer.

HARDY HERBACEOUS PERENNIALS

I have a special contract with one of the most careful growers in the country, permitting me to make very favorable prices upon a large assortment. Quotations cheerfully furnished. Send a list of wants for estimates.

All of my Evergreens are transplanted at frequent intervals, and in addition are root pruned yearly in August.

It is my custom to give ample room in the Nursery rows to allow for the development of each individual tree, so that nearly all of my stock can be best described as "specimens."

An increasing trade is showing its appreciation of prompt service, courteous treatment and choice stock carefully handled.
